## eco- friendly flair

### Sustainable & stylish

*This new line is crafted from recycled PET bottles (PetPanel). These products are not just trendy and chic; they also contribute to a cleaner, better world. Made from recycled soda bottles and produced in the Netherlands, they blend sustainability with local craftsmanship. The material even has acoustic properties. Once your little one has outgrown them, you can send the items back, and KidsDepot will transform them into new, beautiful pieces.*
